

INSTITUTION:

Established in the year 1997 under the aegis of GMR Varalakshmi Foundation, GMR Institute of Technology is a self-financing Autonomous Engineering college approved by the All India Council for Technical Education (AICTE) , The institute is accredited by **NAAC with 'A' Grade**, All UG programs are accredited by **NBA & ISO 9001:2008 Certified Institution**, Affiliated to Jawaharlal Nehru Technological University, Kakinada.

Located in Rajam, Srikakulam district of Andhra Pradesh, GMRIT provides its learning community state-of-the-art facilities, infrastructure and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its curriculum with practical and real world experiences.

OBJECTIVE:

The progressive growth of economy of any nation is possible only through efficient transmission and distribution of electricity. There is a growing need to strengthen the electricity network, meet the increasing demand, enable competition in the electricity market and integrate more sustainable generation resources. The Smart grid also provides a great opportunity for the industries to set in place a modern intelligent grid to ensure greater reliability and efficiency across the entire network. Given that several components of such a Smart Grid are still in a demonstration phase, it is required to bring together different stakeholders to one forum to discuss the challenges ahead and to come out with an action plans to have these smart power delivery systems. By linking the ideas and techniques with other disciplines, the workshop serves as a unifying platform that fosters comparisons, extensions, and new applications.

The goal of this workshop is to enhance the knowledge of faculty, students and industry professionals in the Smart grid/Micro grid areas and implementation of new technologies for smart power generation to encourage scientific research within these areas. To realize the vision and reap the full benefits of a more intelligent energy system, the two-day workshop on 'Advanced Technologies in Smart Grid Applications' is being organized by GMR Institute of Technology, Rajam.

WORKSHOP COVERS:

- Smart Sensors and Advanced Metering Infrastructure
- Impact of Smart Grid on Distributed Energy Resources
- Intelligent Control Systems for Smart Grids
- Agent Systems for Smart Grids
- Support for Storage, Renewable Sources and Micro-Grid
- Transmission Switching and Routing Technologies for Smart Grid
- Power injection by distributed generations in the distributed networks, micro grid with dispatchable and non- dispatchable DG.
- Grid integration of different energy sources and challenges.
- Protection issues.

RESOURCE PERSONS:

1. Prof. D. Das, IIT Kharagpur.
2. Prof. K. Shanti Swarup, IIT Madras.
3. Prof. D.V.S.S. Siva Sarma, NIT Warangal.

ELIGIBILITY:

Faculty members of Engineering / Polytechnic colleges approved by AICTE / Researchers / Practicing Engineers/PG students are eligible.

REGISTRATION:

Faculty/Research Scholar : Rs. 1000/-
Industrial participants : Rs. 1500/-
PG students : Rs. 750/-

Participants can register by sending the registration form along with Demand Draft in favour of "Principal, GMRIT" payable at Rajam and it should reach on or before 2nd March 2014 to
