OBJECTIVE

The National Seminar on **ADVANCES IN WIRELESS TECHNOLOGIES** sponsored by the All India Council for Technical Education (AICTE) provides a research platform for researchers in the field of wireless technologies & mobile computing and also aims at imparting training that helps in updating knowledge in the subject areas discussed in the seminar.

Mobile computing is an area for study of different wireless technologies used for communication between the mobile devices, which work like portable computers. It deals with various protocols used for such communication.

The teachers would be benefited by the knowledge of this advanced topic, which they in turn can impart to the students and also can do research in the related areas.

The participants of the program will have an opportunity to exchange their ideas and to interact with the eminent experts selected as our keynote speakers from various Universities and Institutions.

The seminar consists of keynote sessions by eminent experts in the specialized areas followed by paper presentation sessions.

KEYNOTE SPEAKERS

Senior Academicians from IITs, NITs, IIITs, Premier Universities/ Institutions and Industry Experts will deliver the Keynote sessions.
